

ANDREWS GOES OUT

Haaula People Down Teacher.

HIS TRANSFER IS SECURED

Long Tale of Troubles and Charges and Countercharges—Board of Education.

HAAULA people have won their fight against Christian Andrews, and the veteran school teacher has been transferred from that district to Napoosoo. This action was taken by the Board of Education yesterday, after hearing a report from Inspector Gibson who, with Miss Rose Davidson, went over to Haaula two weeks ago to look into the case.

Andrews' differences with the people of his district have been of long standing. Almost ever since he took charge of the school there have been bickerings between him and the people of the district, and from time to time echoes of these have come to the ears of the Board of Education. It appears that Andrews was in the habit of compelling his school children to work in the garden for him; that he had them clear a tract of ground and then plant it in vegetables for his use. The children were not put to work on the grounds about the school, but upon land which Andrews expects to homestead, and he used the labor of the pupils to clear this and plant it. In addition to this the people of the district charged that Andrews was attempting to proselytize the children, and likewise that he procured calendars gratis in Honolulu and sold them to the children for five cents each.

Andrews, on the other hand, charged the people of the district with running a chee fa bank, and said that the children were made to sell the tickets. He said that the cause of all his trouble with the people arose out of his efforts to stop the practice.

When Mr. Gibson and Miss Davidson visited the district they got all the people of the district together in the schoolhouse and had all the whole matter aired for them. Then Mr. Gibson presented a report to the Board of Education on the matter. In this he recommended that Andrews be transferred to some other district. Some of the members of the Board of Education thought it best to discharge him altogether, but it was decided to send him to Napoosoo.

Owing to the constant complaints that schoolboys played truant from school on steamer days in order to sell the San Francisco papers it was decided to issue permits to such boys as desired to sell papers and could show good cause for so doing.

A petition was received from Mountain View, Oahu, asking that a school be erected there, but it was laid on the table for the present, as there is no money in the treasury for the erection of schools.

L. M. Mitchell was transferred from Miloli to Papa, and K. K. Kaula was appointed to the Miloli school.

The resignation of Miss Daisy Neal as teacher at Hanapepe, Kauai, was received, and Mrs. E. E. Zabuskie was appointed in her stead.

The following additional appointments and transfers were made: Harry T. Mills, transferred from Napoosoo to Kona; in place of Mrs. Sutter, resigned, Miss Florence Rathburn appointed assistant in the same school. R. Ahau was appointed assistant in Wailua. William H. was appointed assistant in Honolulu school, South Kona. Andrew Hina was appointed assistant in Kaupo school, Hana, Maui. Hattie Elderts was appointed teacher in the Kauea school in place of Miss Sophie Rycroft, resigned. Mrs. B. P. Maydwell and Miss Lucile Horn were appointed assistants in Honolulu school.

The appointment of Charles Elston as vice principal of the High School was confirmed.

THE MAIL SERVICE.

The Postoffice Addition—New Arrangement—Star Routes.

Before the rush of Christmas mail begins, perhaps in a month from now, the addition to the postoffice will be ready for occupancy. So says Postmaster Oat.

Louis Kenake's office will be on the lower floor in the mauka, Ewa corner and the work of stamping letters and so forth will go on on the ground floor. The registry department is to be moved from the old building to the upper floor of the new structure and the postmaster will take up his quarters in the portion vacated by the registry department. The acting inspector in charge and the assistant superintendent of the railway mail service will be located in the Waikeiki end of the new building.

One star route in connection with the postoffice has been contracted for and the others are now being arranged. The route over the Pali to Heela is the one already settled.

IT HAPPENED IN A DRUG STORE.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." The remedy owes its great popularity and extensive sale to a large measure to the personal recommendations of people who have been cured by its use. It is for sale by all dealers and druggists. Benson, Smith & Co., Ltd., agents, Hawaiian Territory.

COMMERCIAL

CONDITION OF THE STOCK MARKET.

There has been very little activity in the stock market during the past week. There were some purchases made, however, at prevailing quotations. The most active stock is Waiakoa, which is held in 119 Hawaiian Sugar Company stock sold at 100 on the Stock Exchange. This is considered a good buy for the reason that the stock of the Makaweli Sugar Company, which is made up from the Hawaiian Sugar Company shares, is bid in San Francisco, which is equivalent to 25 bid for the Hawaiian Sugar Company shares here.

Of the assessable Oahu is the most active on account of the foreign orders coming in for the stock. The stock has risen from \$2 to \$3 per share of late, \$3 paid in. Oahu orders are confined to the assessable shares, as the paid up stock is offered at \$12, equivalent to \$3 below par. Kila is still weak and not over \$7.50 has been bid for the stock. A long list of delinquent stock is being advertised for sale on November 10.

Brokers are looking for activity in the market with the receipt of the news of McKinley's election. If the American people endorse the McKinley administration, the local brokers feel certain that every steamer thereafter will bring in large orders for Hawaiian sugar stocks.

REAL ESTATE MARKET AND BUILDING ACTIVITY.

The real estate market is steady with few fluctuations in listed real estate offerings. No sacrifices are being made. Owners generally are holding on to their property, although good offers in many instances have been made. There is an upward tendency in the market, and the result of the local election will undoubtedly have an effect for good or bad, as the election goes. A Republican victory on the Mainland, so the bankers assert, will give a better tone to the financial markets and ease up the tension existing here. By the same reasoning the endorsement of the present administration by Hawaii will create a sound credit for the Islands. A Legislature made up of men who have responsibilities which need to be protected, will go far toward loosening up the money market. A Legislature composed of irresponsible men would have a bad effect upon the country, and the banks would be less accessible for borrowing money than at present. A tight money market is promised if the Legislature is made up of men whose statements in the political campaign have made it apparent they are not in sympathy with public interests, and will hurt the real estate and stock market.

The architects report that they are getting out few plans at present for extensive building. Residences, however, are springing up all over the City, the majority of which might be termed cheap cottages which can be put up at a minimum cost and bring rentals which are considered exorbitant by those who are compelled to live in them. A few handsome residences are in course of completion and are in keeping with the tropical tone of the old-time architecture which should always obtain in Honolulu.

DID HE SECURE THE SICILIAN LABORERS?

A distinguished visitor to the city during the past week was Mr. S. J. Hundley, who is the engineer of the Makaweli Sugar Company, one of the most successful plantations in Hawaii. Mr. Hundley is a Virginian by birth, and is one of the most successful plantation managers in Hawaii. He was in the city for the purpose of looking into the labor conditions here. —Louisiana Planter, October 13.

BAGASSE BURNING IN HAWAII.

(A letter from Mr. C. Heidemann, Manager, Honolulu Iron Works Co., read at the meeting of the Louisiana Sugar Planters' Association, Oct. 11th, 1908.)

Reginald Dykers, Esq., Secretary Louisiana Sugar Planters' Association, No. 323 Carondelet street, New Orleans, L.

Dear Sir: I have received your note of the 4th August 1908. With regard to preparing a paper to be read before your association on the burning of bagasse in the Hawaiian Islands, I beg to say that I do not think any one in the Hawaiian Islands at present can give you a full and reliable description of our best methods of burning bagasse, for the reason that we are at present preparing plans and erecting bagasse furnaces for several large sugar houses on a somewhat different plan from what is used to be our style, and which I confidently believe will be an improvement. I think, therefore, it will serve you best not to ask any one to prepare such a paper, which would only give the planters in Louisiana an idea of what used to be the methods in the Hawaiian Islands. We shall be in a very much better position to talk about this subject in from one to two years from now.

My personal observation of the manner in which bagasse is burned under boilers in Louisiana and also in Cuba leads me to believe that we have an entirely different system, not using blast of air or forced draft at all, and being able to burn our bagasse with the greatest ease, and have, in most cases, quite a large amount to spare. But I also believe that the set of this does not all lie in the construction of the furnaces; it must be found in the proper crushing of the cane in the mills, thereby reducing the moisture as low as possible, in our case to about 40 per cent of less. But as I have mentioned, I think no one in the Hawaiian Islands is able to speak in general about this subject at the present time. They may be able to describe to you how they do it on a number of plantations, but what I think would be of the greatest interest to you would be a general description after close observation of the nature of the cases as they escape to the smokestack, and other items of which we, up to the present, have been unable to get a proper record.

I know that the majority of the Hawaiian planters will be greatly pleased in reading the discussion you are going to have in your association on this subject, although I do not believe any of them will be ready to try to adopt your methods. I remain, yours respectfully, C. HEIDEMANN.

PLUMBING TRUST STOPS BUILDING OPERATIONS.

That the plumbing trust has affected the building activity of Honolulu is apparent by the number of property owners who have signified their intention of doing no more building until the plumbing question has been settled, and they are assured that the plumbing bills will not cost the cost of putting up living places. There are a number of empty lots on Punchbowl street which were being prepared for the erection of cottages when the work was brought to a stop by the uncertainty of the cost of the plumbing. According to the regulations of the Board of Health, no residence can be occupied until the owner has complied with every sanitary and plumbing regulation. On many of the streets in the Punchbowl district, for instance, where a cottage would cost a few hundred dollars, the owners feel that the plumbing would aggregate a like amount. A builder and property owner has made use of the argument that when it costs him as much to plumb his house as it does to erect them it is time that radical measures were taken to change the conditions making this possible. Householders hesitate now to attempt any remodeling of their plumbing system. One firm in particular has shown that "punch" methods of securing job work are in vogue. They say in almost every instance that it is impossible to make an estimate of the cost, but that "it will be all right; we'll make the price all right." The bills rendered show how they carried out their promise.

What the Kidneys Are For

WHAT DOAN'S BACKACHE KIDNEY PILLS DO.

It's the duty of the kidneys to see that the blood keeps pure.

Not to make new blood—the food we eat does that, but to remove from the blood all the poisons and impurities—the waste matter—that is gathered up during its circuit of the body.

These poisons are deadly. If they are not taken out of the blood by the natural filters, the kidneys, they are carried back to the heart, and are started out again all through the body.

Of course they cause disease. We can't be healthy if our blood isn't pure.

When our kidneys are sick our back aches. That's a way they have of telling us they need help.

It's the duty of Doan's Backache Kidney Pills to cure sick kidneys. They know their duty well.

They are performing it here in Honolulu.

Here's a case in point: Mr. H. H. Smythe, of Inter-Island S. S. Co., this city, writes to tell us that he was afflicted with a lame back for a number of years. "Ascribing the cause of this to the kidneys and hearing about Doan's Backache Kidney Pills, I got some of them at the Hollister Drug Co.'s store. They relieved me so much that I am perfectly satisfied with the result of having taken them, and can recommend the pills to others, suffering from backache." Doan's Backache Kidney Pills are yesterday.

becoming popular in Honolulu because they are always endorsed by Honolulu people.

Our kidneys filter our blood. They work night and day. When healthy they remove about 500 grains of impure matter daily. When unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot dry skin, rheumatism, gravel, gout, disordered eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes for \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Appointment for Jack McVeigh.

Jack McVeigh has received an appointment as superintendent in the Marine Hospital service for duty at Quarantine Island, and yesterday he tendered his resignation as an agent of the local Board of Health to take effect at the end of the present month.

Mr. McVeigh was one of the most popular of the officials of the Board of Health and the men with whom he had been associated for so long will be sorry to lose him. The appointment was received in a communication from Assistant Secretary of the Treasury O. L. Spaulding by the last mail from the Coast, and is an excellent one, so Mr. McVeigh was congratulated on all sides yesterday.

SORE HANDS

Red, Rough Hands, Itching Burning Palms and Painful Finger Ends

ONE NIGHT TREATMENT

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

Millions of Women Use Cuticura Soap

Exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive anesthetic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP all ONE PRICE, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world.

Complete External and Internal Treatment for Every Humour. Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment, to instantly allay itching and irritation and soothe and heal, and CUTICURA Erosolvent, to cool and cleanse the blood.
